Uh

I don't remember why I unpublished this book, have fun with it I guess

YOU DIDN'T SEE ANYTHING

Humanizations

I'm in the humization team, I'm sure I'll upload many more as I make them, I want to make the clarification that I don't put skin colors to these characters, I like to think that each person decides the skin colour.

Ice cube

Flower and Ruby

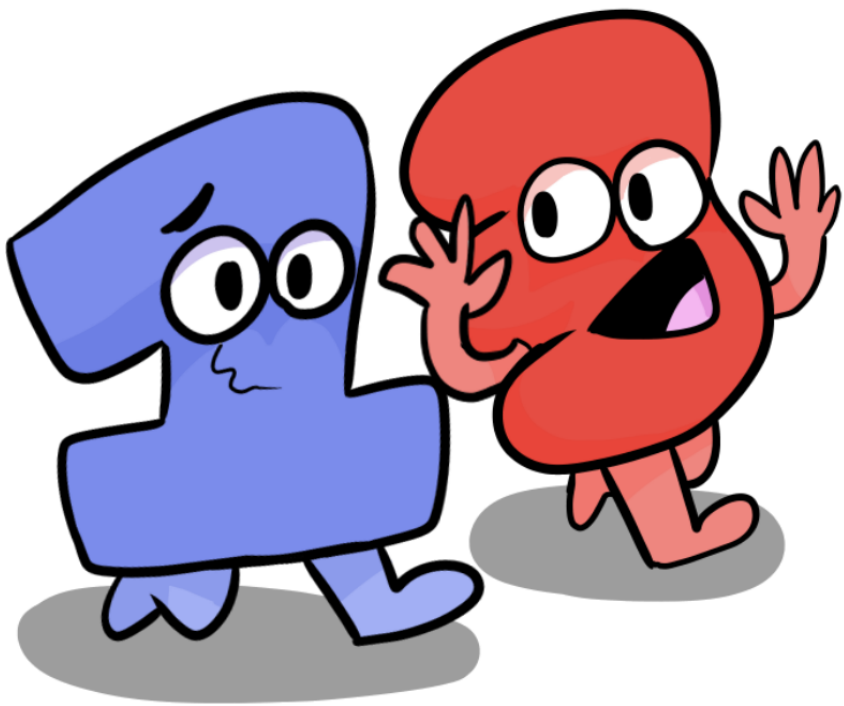
Ruby but with Two trucks (and a more polished design)

BFDI mini trio

The three finalist of BFDI mini first temp.

1, 3, 9 and a dog

I want to see One, they have never appeared before and is the only algebralien with no arms.



Also, Nine and Selfie dog are really cute together.

What is that you Got buddy?

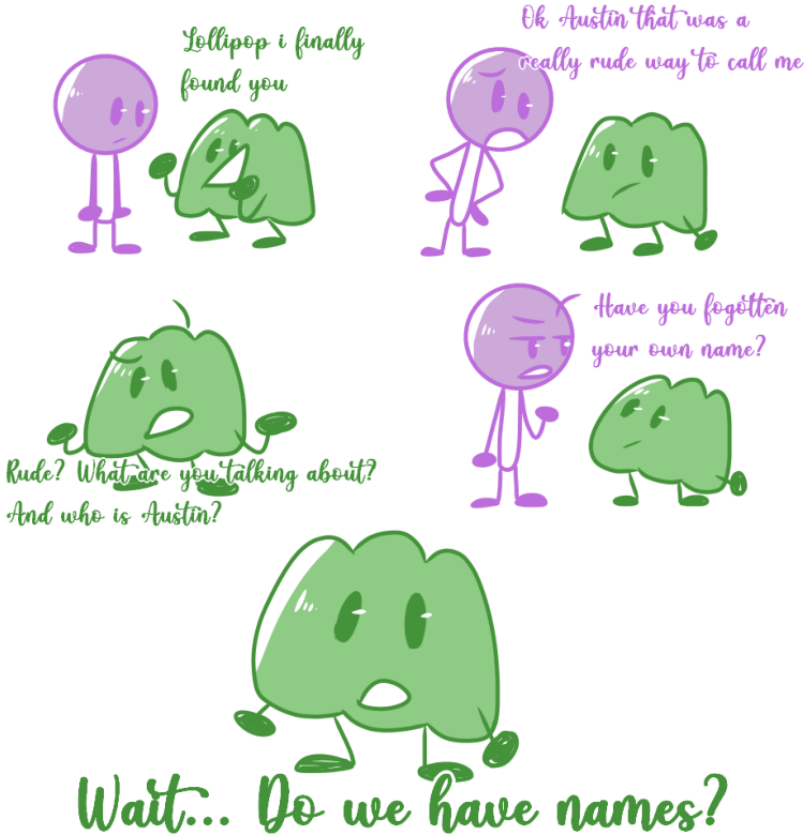
Names

It is in italics because I was too lazy to change the typography



Lollipop i finally found you
Ok Austin that was a really rude way to call me
Have you fogotten your own name?
Rude? What are you talking about? And who is Austin?
Wait... Do we have names?

Firey and Leafy in Moxie's bad trip

Why not? Firey and Leafy singing the Moxie's badtrip song is an idea i got while i was having insomnia. It's a bit weird knowing the context of the song (and Helluva boss in general) compared with BFDI's family friendly TVY aproach.

Why? Firey Why? Have you held your true feelings inside?
I'm scared of rejection!

We even have the same hair

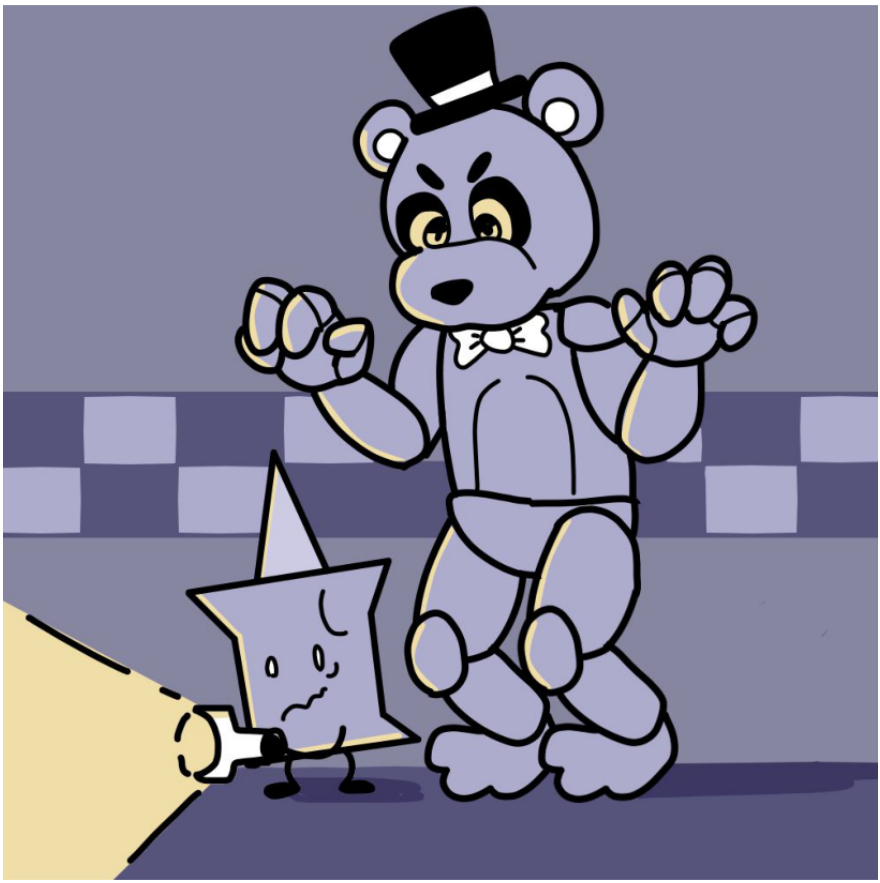
Pin plays fnaf comfirmed

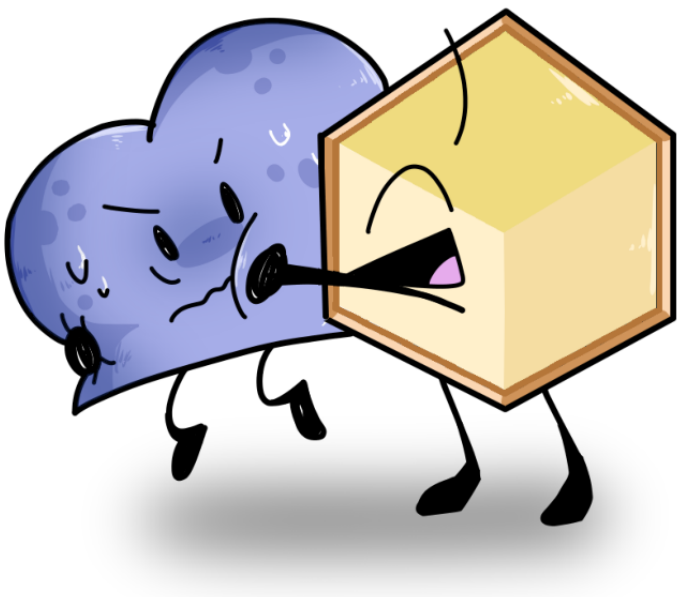


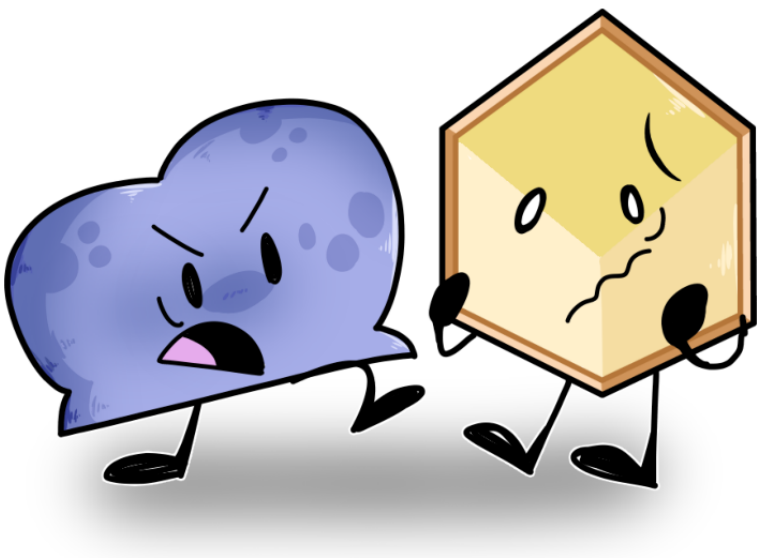
"What this is crazy! It's the dead night across the US, which will typically be very scary if you were playing Five Nights at Freddy's"
-Pin

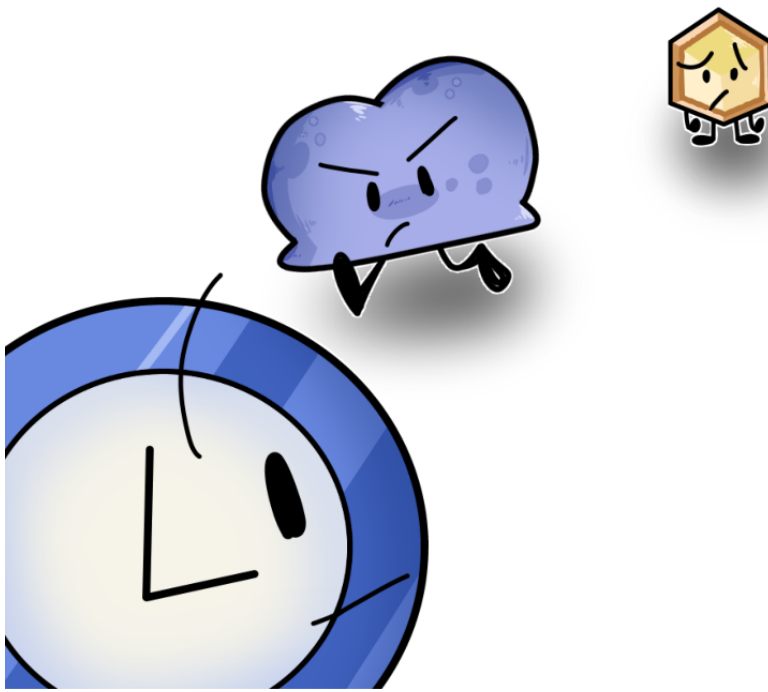
What were they thinking before making Pin say that in the newest Jacknjellify video? I don't know...

Loser and Winner

A little comic of Loser and Winner, it was an idea from my little sister. The point is that they went through a discussion in the past and now Winner hates Loser.







Ruby and Flower

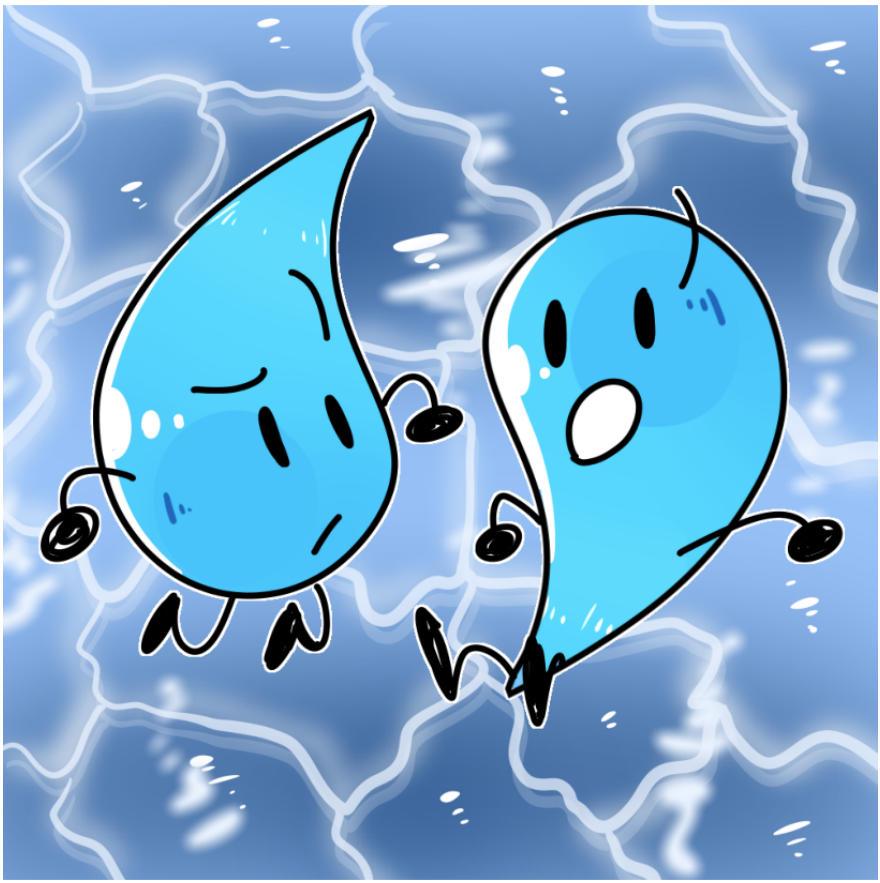
Fanfic villains

Pin from Fear garden and Firey from Survive (rest in peace), i mean they will probably try to kill each other if they met but imagining them as friends talking about Leafy is something i like more.

Irrelevant spoiler - Shelly and Grassy

As the title says, this is technically a spoiler for next chapter but at the same time it's not important to the plot of any of the parts, i don't know if i'm being clear xd

Teardrop and Drear-top



oh wow, look, you are exactly like me. I never imagined i had a dopple gänger, well actually you are quite different, you look like me but flipped isn't that something so amazing? is that even posible? Wait a second, does this mean all my friends also have an alternate version but with the asset upside down? That would be so cool! I will finally have someone to talk with, people is really mean with me you know? they think i'm anoying but now we can be like, SIBLING BEST FRIENDS! if we are gonna be besties we will need activities to do every sunday evening like best friends have i really like painting, i'm usually not that good btw maybe you can teach me now that we are so close i was thinking about your weird way to to listen to me, your hands seem to cover the place you have your ears, but you know? we are objects and we don't have ears so it doesn't matter really, i wonder how that works. How can i hear without ears? That's against the laws of nature, how can we exist? why we exist? Have you ever questioned that? i mean it is a really hard question, i'm sure those old guys with
